

Our Digital Offer

Co-Brand Dashboard

What is it?

A Co-Brand Dashboard is a customisable partner-branded webpage within the UK Coaching website. It enables you to have learning content and journeys built to guide people through their learning experience.

With an inbuilt consent mechanism, UK Coaching can share user activity back to you, the partner, to help formulate a learning strategy.

A Co-Brand Dashboard is usually accompanied with a bundle of products or programmes, this enables you to customise the journey for your learners through their experience.

Co-Brand Reporting

With user consent already considered, we can share data to the partner using Microsoft PowerBI.

We offer three options:

Standard reporting: Activity Summary, Most Popular Content, eLearning Summary, Workshop Summary, Customised Survey Results, Discount Code Usage, Anonymised Equity, Equality, Diversity and Inclusion (EEDI) Survey.

Advanced reporting: All the features of standard reporting but with line level user detail. This is especially useful for tracking individual user completions of programmes of learning.

Custom reporting: For where an organisation might want some custom reports built for hosted products.

Welcome Robin

Welcome to the UK Coaching and British Taekwondo 'Coach Development Dashboard'. Designed to provide a one stop shop for all things Coach Education and Development you can use the Dashboard to access a range of high-quality resources to support you on your learning journey and in your role, helping you to develop your practice. Our intention is to share useful resources for coach development practice, grow and connect our excellent Taekwondo community network and generate opportunities for discussing and sharing good practice. As well as making improvements to how we deliver our programmes. We hope to stimulate your thinking, offer a variety of different perspectives, and develop your curiosity about the work you do. Happy reading, listening, and watching.

Coach with confidence: Learn how to plan, coach and reflect on your coaching practice. Updated in 2023.

Hosting on ukcoaching.org

What is it?

UK Coaching would love to host, promote and distribute your eLearning from our UK Coaching website and platform. Whether you want to host exclusive learning or open it up to our 200,000+ registered learners, it can be built and designed by our in-house team of learning experts, by yourself, or by a third party - we have a range of options to suit you.

UK Coaching will manage all the administration of the platforms and products.

We can also support the marketing of your courses to our opted-in learners and partners.

Our Co-Brand Dashboard and reporting products track purchases, usage and completion rates in real time.

In this course you will:

- Develop a clear understanding of cerebral palsy.
- Explore tools and ideas that can help you overcome challenges at your sessions.
- Consider practical techniques for adapting sessions to include people with cerebral palsy.

This eLearning course is suitable for **coaches working at all levels** who are interested in creating a more inclusive and welcoming environment for participants with cerebral palsy.

An Introduction to Cerebral Palsy in Sport and Physical Activity

UK Coaching and Cerebral Palsy Sport Valid for 12 months

Learn about cerebral palsy and explore practical tips and techniques that will help you develop a great inclusive environment at your sessions

Overview

Cerebral palsy is a condition that affects movement and coordination. It's the most common motor disability in childhood. As exercise can help children with cerebral palsy avoid injury, and reduces the impact of associated disorders and illnesses, coaches have a valuable role to play in supporting people with cerebral palsy to enjoy taking part in physical activity and sport.

Learning more about what it is like to have cerebral palsy will be a powerful tool in your coaching toolbox, enabling you to further grow and develop as a coach.

Through the course, you will gain the knowledge, skills, and confidence that you need to run inclusive and creative sessions that welcome people with cerebral palsy and give them a meaningful opportunity to take part and reach their goals.

Partner Platform

What is it?

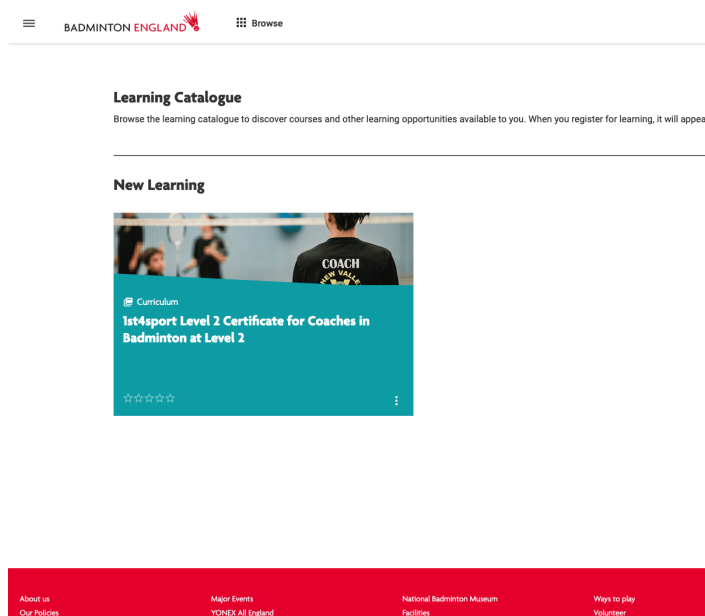

This is a dedicated branded platform for the partner, so you can administer and manage the learning experience for your people.

This sits as a branded instance of our shared Learner Experience Platform (LXP) rather than the ukcoaching.org website, enabling you to customise and manage the content and experience.

Learner registration and sign-up can be tailored to your requirements with your own dedicated registration pages. The platform can be fully branded to your guidelines.

A typical partner platform customer could use the platform to manage the process between qualification registration and certification or run a full CPD programme. The platform offers flexible functionality to host a blend of regulated and unregulated learning and assessment activities, pulled together in a seamless learning journey.

Functionality options include, but are not limited to, webinars, virtual classrooms, events, workshops, eLearning, assessments (both multiple choice and documents to be uploaded and assessed). This makes it ideal for organisations utilising a range of products and services.

CCBL2 Task 2: Delivery of a Group Coaching Programme

23QBADCERT2.2

BADMINTON ENGLAND

23QBADCERT2.2
ID: 0003320
Not evaluated

[VIEW TASK HISTORY](#)

About this task

Objectives

- 2.1 Complete a **Risk Assessment** for the venue(s) at which you will deliver your group coaching sessions.
- 2.2 Complete a **Safety Checklist** prior to the sessions being delivered. These should be completed before any coaching takes place to ensure the safety of the venue and planned activities.
- 2.3 Complete a **Registration and Analysis form** for each of the four players you plan to coach. This will give you valuable information about the participants' health, safety and well-being, along with their motivations for taking part in badminton.
- 2.4 Using an evaluation session plan, deliver an evaluation session and complete an **On-Court Player Evaluation** sheet (attached to Registration and Analysis paperwork 2.3) for each participant, identifying priority development areas for each player. These should include areas:
- 2.5 Once you have delivered your session, complete a **Participant and Group Summary**, outlining any issues in relation to the player registration and analysis forms, summarising findings from the on-court observations and identifying proposed actions/implications these the coaching programme.
- 2.6 Produce an **Outline Group Coaching Plan** for four linked and progressive sessions, using the technical and tactical goals identified from the player evaluations above as a starting point.
- 2.7 Complete a **Group Coaching Register**, listing the four players who have attended your coaching sessions along with the dates they attended.
- 2.8 Complete individual coaching **Session Plans** for all four linked and progressive sessions. Each individual session must contain a minimum of 30 minutes coaching (excluding warm-up & cool-down) and are to be witnessed by a more experienced and qualified badminton coach.
- 2.9 After you have delivered each session, complete an individual **Session Review** (attached to session plan paperwork 2.3) identifying areas of good practice and areas for development in both the content of the sessions and your own individual coaching practice.
- 2.10 Complete an **Overall Review of Group Coaching** for the four delivered sessions looking at the following areas:
 - success of the coaching programme
 - strengths/areas of improvement
 - action plan for further development.
